Allowable Subject Matter

1. Claims 1-4,6-8,10-14 are allowed.

Reasons for Allowance

2. The following is an examiner's statement of reasons for allowance:

Claim 1 is allowable over the prior art of record because the prior art, either alone or in combination, does not disclose nor render obvious first and second PMOS transistors and a level shift circuit, in combination with the rest of the claimed limitations.

Claims 2-4, 6-7 are allowable because it contains the allowable subject matter of claim 1.

Claim 8 is allowable over the prior art of record because the prior art, either alone or in combination, does not disclose nor render obvious an auxiliary transistor connected to the output voltage and a voltage detector electrically connected to the reference voltage and the auxiliary transistor for controlling the auxiliary transistor according to the reference voltage, in combination with the rest of the claimed limitations.

Claim 10 is allowable because it contains the allowable subject matter of claim 8.

Claim 11 is allowable over the prior art of record because the prior art, either alone or in combination, does not disclose nor render obvious a re-charge module for recharging the main transistor comprising: a stable transistor, a main re-charge transistor connected between the stable transistor and the main transistor for re-charging the stable transistor according to a voltage level of the stable transistor; and a stable recharge transistor connected between the stable transistor and the main
